

Curriculum Vitae: Ifteher Alom

PERSONAL INFORMATION	Doctoral Student, Research Assistant University of Kentucky	<i>LinkedIn:</i> www.linkedin.com/in/ifteheralom <i>E-mail:</i> ifteheralom@uky.edu
RESEARCH INTERESTS	Network Security, Blockchain Applications, Identity Management Schemes, and Applied Cryptography.	
EDUCATION	Ph.D. in Computer Science University of Kentucky, Lexington, United States	2023 to date
	Advisor: Dr. Yang Xiao	
	Current Research Focus: Explore Self Sovereign Identity (SSI) tools for enhancing security and privacy aspects in identification schemes, applications of Zero Knowledge Proof (ZKP) and Trusted Execution Environment (TEE).	
	B.Sc in Computer Science and Engineering Shahjalal University of Science and Technology, Sylhet, Bangladesh	2016 to 2019
	Final Year Project: Performance measurement framework for private blockchain platforms	
	Electives: Computer Security, Database Systems, Artificial Intelligence	
	Projects:	
	<ul style="list-style-type: none">– Block explorer for private blockchain platform: Developed a middleware to fetch and present data from the blockchain using platform SDK for Hyperledger Fabric applications deployed on a local blockchain network using docker.– Online course management system: Portal for teachers and students to manage class schedules, course registration, attendance, and results.– Tutor finder mobile app and website: Android mobile app and website featuring area-based tutor search, profile management, and chat room.	
EMPLOYMENT HISTORY	Software Engineer Samsung R&D Institute (SRBD), Dhaka, Bangladesh	March, 2020 to July 2023
	Projects: OneUI Home, Samsung Messages, Backup and Restore	
	Responsibilities: Develop features according to requirements using new tools, libraries, APIs, and frameworks in <i>Android WearOS</i> and <i>Tizen</i> platforms. Communicate with key stakeholders located in different geographic locations. Research and propose ideas to improve user experience and stability of Samsung services. Explore new technologies that can help in the innovation and development of a smarter ecosystem.	
	Research Assistant Shahjalal University Blockchain and SEcurity Laboratory (SUBSEL), Sylhet, Bangladesh	September, 2019 to February 2020
	Projects: Securing online university services	
	Responsibilities: Conducted research and development of a prototype for a unified authentication and authorization system for online university services (Federated Identity Management).	
	Tech Stack: SimpleSAMLphp, Zimbra Mail, Hyperledger Fabric, AWS EC2, Docker, Golang, Javascript, CentOS, Ubuntu.	
JOURNAL PUBLICATIONS	<p>[1] Alom, Ifteher, Md Sadek Ferdous, and Mohammad Javed Morshed Chowdhury. "Block-meter: An application agnostic performance measurement framework for private blockchain platforms." <i>IEEE Transactions on Services Computing (TSC)</i>. 2023.</p>	

CONFERENCE
PUBLICATIONS

- [2] Johnson, Athan D., **Ifteher Alom**, and Yang Xiao. "Rethinking Single Sign-On: A Reliable and Privacy-Preserving Alternative with Verifiable Credentials." *Proceedings of the 10th ACM Workshop on Moving Target Defense (MTD)*. 2023.
- [3] **Alom, Ifteher**, et al. "Dynamic management of identity federations using blockchain." *Proceedings of the IEEE International Conference on Blockchain and Cryptocurrency (ICBC)*. IEEE, 2021.

POSTERS

- [4] **Alom, Ifteher**, and Md Ahsan Uddin Shatil. "Performance Measurement Framework For Private Blockchain Platforms." *In the 6th International Conference on Networking, Systems and Security (NSysS)*. 2019.

TECHNICAL
SKILLS

- Programming Languages: Java, Python, C++, Golang, Javascript, PHP
- Blockchain Frameworks: Hyperledger Fabric, Ethereum, Bitcoin
- Web Technologies: Express, React, Angular, Django, Bootstrap, JSP
- Database Tools: MySQL, MongoDB, Firebase
- Mobile Development: Andoid, Tizen
- Version Control: Git, Perforce
- Operating Systems: Ubuntu, CentOS, Windows

AWARDS

- **Software Certification** by Samsung Electronics in recognition of professional programming skills.
- **SRBD Icon Employee** for delivering project goals and teamwork in Galaxy Watch 5 development.
